## DETAILED ACTION

The Group and/or Art Unit location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Group Art Unit 2616.

#### Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See In re Goodman, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 32-35 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of U.S. Patent No. 6,798,976, in view of Kikuchi et al. (US 5,870,523).

Application claims 32-35, medium, method of recording, reproducing method and apparatus, with respect to patented claims 1-4, which also recite substantially the same claims such as medium, method of recording reproducing method and apparatus, the application claims recite all as recited in patented claims

Art Unit: 2616

but, the application claims further recite additional limitations such as,

"wherein the objects units each including video data or audio data, said video data including information of still pictures", wherein, "a management table/area included in the control information and configured to store .... Still picture time information for the still pictures".

Kikuchi teaches having video objects wherein a picture is made still also having navigation control indicating whether the picture is made still and having a rest time, as taught by Kikuchi (col. 17, lines 36-43).

Therefore, it would have been obvious to those skilled in the art at the time of the invention to further recite wherein, the media, recording and reproduction methods and apparatus, claims to further recite, "video ... wherein the video data including information of still pictures with time information", wherein management information includes still picture time information for the still pictures, as taught by Kikuchi, being an obvious well known data structures for providing video images, as still images with rest time or duration parameters, as is known and taught by Kikuchi.

Allowance of application claim(s) of the instant application would result in a time-wise extension of the monopoly previously granted for the invention defined by patent claim(s), therefore, obviousness type double patenting is deemed proper.

Art Unit: 2616

### Contact Fax Information

Any response to this action should be faxed to:

(703) 872-9306, (for communication intended for entry)

## Contact Information

Any inquiry concerning this communication or earlier communications should be directed to the examiner of record, Monday-Tuesday & Thursday-Friday, 8:00 AM to 5:00 PM Vincent F. Boccio (571) 272-7373.

Primary Examiner, Boccio, Vincent 4/30/05
